Senate Taxes Committee  
95 University Avenue W.  
St. Paul, MN 55155

Chair Paul Marquart  
House Taxes Committee  
597 State Office Building  
St. Paul, MN 55155

Dear Chair Nelson, Chair Marquart and members of the House and Senate tax committees:

As organizations who care deeply about the future of farming in Minnesota, we write to express strong support for expanding the Beginning Farmer Tax Credit (BFTC) to help more young people build a life in agriculture. This successful and pioneering program helps new farmers access land, equipment, livestock, and other assets needed to run a successful farm operation.

To help this program better serve Minnesotans, we ask that you:

- Extend the credit for sale of agriculture assets to family members, which will help more young farmers and assist in generational farm transition. As any farmer will tell you, farm transitions are complex, costly, seldom easy – any new farmer on the land is a win for our rural communities and the state.
- Increase the credit for sale of agricultural assets to socially disadvantaged farmers from 5 to 10 percent. This will provide additional and needed support to emerging farmers who could benefit from the working relationships the credit helps broker with more established operators.
- Provide the Rural Finance Authority (RFA) funding to administer the credit, create an online application, and otherwise improve access for beginning farmers.
- Extend the sunset of the program which is set for December, 2023.

Importantly, these changes can be made within the funding already allocated to the credit. Taken together, they will strengthen this nation-leading program and better serve beginning farmers.

We ask that you include these changes in a supplemental tax bill this year. Thank you for your work on behalf of farmers and all Minnesotans.

Sincerely,
